Claims 1-4, 17, 30-41 and 49 are pending.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Wong.

Wong discloses a composition for application to fabrics comprising 8% polyvinyl alcohol, 50% ethanol and 41.2% water at column 16, lines 45-48. Applicants' recitation of a "dental isolation material" is seen as an intended use and is not seen as imparting patentability to the rejected claims.

Therefore, the reference anticipates the rejected claims.

Claim 30 is rejected under 35 U.S.C. 102(b) as being anticipated by GB 484,343.

GB 484,343 discloses dental prostheses produced using "dental flasks" at page 2, line 50. Although the rejected claim is a product by process claim, applicants need to demonstrate that patentably distinct properties necessarily flow from the claimed process.

Therefore, the reference anticipates the rejected claim.

Claims 4 and 49 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 17 and 31-41 are allowed.
